

## About Our Instructor

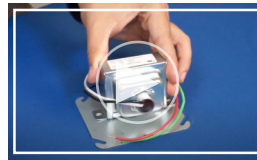

Doug Johnson, DiversiTech's National Training Manager, has dedicated his career to the HVAC industry for over 30 years. Doug is a product training expert, developing NATE approved programs for wholesale distributors and contractors. He's grown up in the industry as a third generation HVAC contractor gaining valuable field experience early in his career and has since worked with three international motor/blower manufacturers in sales and marketing management roles interfacing with most of the OEM equipment manufacturers and distributors.

## Training Topics

## NATE Approved Critical Components Training

DiversiTech has developed DiversiTech University, a complete HVAC/R critical components training program which has received approval by North American Technician Excellence (NATE). Our instructor-led course is designed to help technicians maintain their educational hours to retain their NATE certification. Unlike other distributors, who may only offer training on one HVAC/R component, DiversiTech's program is designed to train on our entire product line, demonstrating how the various critical components in the HVAC/R system interact with each other resulting in either proper or improper performance of the system.

DiversiTech is a Registered Training Provider (RTP). Our RTP #: 5275
